ABOUT ME

Final-year BS Computer Science & IT student at **NED University of Engineering & Technology**. Frontend Developer specializing in React.js and responsive web applications. Experienced in building scalable UI components, integrating REST APIs, and optimizing performance. Seeking entry-level frontend or web development roles.

EXPERIENCE

Full Stack Development Intern (Remote)

10Pearls | May 2026 – July 2026

- Developed a full-stack to-do task management platform utilizing React, ASP.NET Core Web API, and Microsoft SQL Server.

Developers Hub (Remote) Jan 2026 – Feb 2026

- Developed AI/ML solutions across NLP, predictive analytics, and classification tasks, including news classification, customer churn prediction, and automated ticket categorization.
- Built and optimized machine learning pipelines involving data preprocessing, model training, evaluation, and deployment workflows.
- Worked on an AI-powered health chatbot leveraging NLP techniques to improve user interaction and automated assistance.

Intern(On-Site) KDA (Karachi Development Authority) May 2025 - June 2025

- Supported technical operations and administrative workflows across cross-functional municipal development projects.
- Gained hands-on experience in large-scale organizational processes.

PROJECTS

CollabriAI (Final Year Project)

- Designed and implemented an autonomous AI chatbot system with intelligent query routing, Neo4j-based knowledge graph integration, and structured JSON output generation for dynamic UI rendering.
- Developed the complete chatbot solution across frontend and backend, creating the user interface, API services, and AI integration layer to deliver an end-to-end conversational experience.

Tech Stack: React, FastAPI, Python, Neo4j, LLMs (Llama, DeepSeek, Claude), REST APIs, Git 2025-2026

TaskMangement/To-Do-App

- Designed and developed a full-stack task management system featuring a dynamic Kanban board, task workflows, and real-time workspace synchronization.
- Built frontend interfaces and backend services with React, ASP.NET Core MVC, and SQL Server to support scalable task operations and collaborative productivity.

Tech Stack: React, ASP.NET Core MVC, C#, SQL Server, Entity Framework, REST APIs, Git 2026

Health-Chatbot - Safe Medical Advisory Agent

- Developed a safe AI health information chatbot using LLMs (OpenRouter) with advanced prompt engineering and safety filters for reliable, non-diagnostic guidance.
- Implemented emergency keyword detection, sensitive topic handling, and response validation to ensure responsible and safe user interactions.
- Tech Stack: Python, OpenRouter API, LLMs, NLP, REST APIs, Git.

2025

Personal Portfolio

SKILLS

Soft Skills:	Strong Focus & Attention to Detail, Consistent Work Ethic, Adaptability to New Tools & Technologies
Software Skills	React, JavaScript, C/C++, HTML5, CSS3, Tailwind CSS, Python, MongoDB, Postman, Neo4j, Microsoft Office, Microsoft Teams
Languages:	English, Urdu

EDUCATION

2022-2026

NED UNIVERSITY OF ENGINEERING AND TECHNOLOGY

Bachelors in Computer Science and Information Technology

CERTIFICATES

JavaScript: Udemy – Meta Brains	2025
React Js Web Development: IEC (Institute of Emerging Careers)	2026
Google AI: Coursera - Google Specialization	2026
